

myPrice Offer Board and Personal Grain Valuation

Please return this form with unsold grain (wheat, oilseeds, feed-grains, pulses) you have either in the system or ex-farm.

Benefits of myPrice:

- ✓ allows us to quickly contact relevant growers when we have attractive prices
- ✓ receive weekly personal grain valuations, that take your precise location into account
- ✓ Your listing is FREE so you have nothing to lose and everything to gain. Fees apply only if you decide to use Market Check as your agent to sell the grain.

Why the myPrice offerboard is better than other systems in the market:

- ✓ your target price is indicative only and not a firm offer
- ✓ if you agree to sell at your target price, we will actively work the market and will often achieve a higher price than your target (other systems will trigger the sale at your target)
